Saturday	9:00am-2:00pm

## What is a Certified Physician Assistant (PA-C)

Physician Assistants (PAs) are health care professionals licensed to practice medicine with Physician supervision. Certified PA's can do a variety of procedures, including:

- Take health history
- Conduct physical exams
- Diagnose and treat illnesses and injuries
- Order and interpret tests
- Counsel on preventative health care
- Assist in surgery
- Write prescriptions
- Cast a fracture or fit a brace
- Manage follow-up care
- Give injections

## The Physician and Physician Assistant Team

The relationship between the PA and the supervising Physician is one of mutual trust and respect. The PA is a representative of the Physician, treating the patient in the style and manner developed and directed by the supervising Physician. Missoula Bone & Joint PAs assist the Physician in clinic, in surgery, and staff our Urgent Care Clinic.

For a comprehensive listing of the Missoula Bone & Joint team please visit our website [www.missoulaboneandjoint.com](http://www.missoulaboneandjoint.com)

## Walk-In Orthopedics

Missoula Bone & Joint Orthopedic Urgent Care is a convenient option for treating the following acute injuries or conditions:

- ✓ Sprains or strains (anywhere except the neck/cervical region)
- ✓ Closed fractures
- ✓ Minor dislocations (fingers and toes), hip or shoulder dislocations should go to the emergency room
- ✓ Painful, swollen or injured joints such as knees, elbows, ankles and shoulders
- ✓ Carpal tunnel pain
- ✓ Sports injuries
- ✓ Foot and ankle injuries
- ✓ Acute pain such as sudden back pain (no neck injuries or conditions)
- ✓ Cuts and lacerations
- ✓ Cast or wound dressing needs

*Please keep in mind that some injuries or conditions are better treated in the emergency room.*
